

# THE SCOTTISH TERRIER CLUB INC COMPETITIONS

The Scottish Terrier Club Inc (STC Inc) runs two competitions each year -

- The Point Score Competition
- The Challenge Competition

The competitions are open to *STC Inc* members only.

The aim is to get more Scottish Terriers in the ring, particularly at selected shows.

The Scottish Terrier must be owned or part owned by a STC Inc member.

The winners are presented with a Banner/Sash at the Christmas Lunch and Awards Presentation.

## **THE POINT SCORE COMPETITION**

There are 12 Point Score shows each year - that may be increased or decreased by members at an Executive or General Meeting.

This number is made up from 3 STC Inc Shows (traditionally held each year at Easter, in August, and October), other speciality shows and All Breeds Championship Shows.

The annual Point Score shows are displayed on the STC Inc website and advertised in STC Inc newsletters. The selection of the shows including venues, and dates for all shows will vary in some way each year.

The scores are calculated from each nominated Point Score show marked catalogue signed by two STC Inc members present on the day of the Point Score show.

- Marked catalogues will be kept by the Point Score Steward.
- To view a marked catalogue, a request is to be made in writing to the Point Score Steward.
- Inquiries regarding scoring for a particular show are requested as soon as possible after the show in question.

The winner of each category is determined by the highest number of points awarded as per the "Guidelines for Scoring".

## ANNUAL AWARDS

**Best Baby Puppy Under 6 Month** - Class 1 and 1a

**Best Puppy (6-9 Months)** - Age dependent, not class dependent - may be from class 2/ 2a and 3/ 3a

**Most Successful Dog** - All Dog classes except 1

**Most Successful Bitch** - All Bitch Classes except 1a

**Most Successful Breeder** - All classes

**Most Successful Sire** - All classes

**Most Successful Dam** - All classes

**Born In Australia** - All classes except 1 and 1a

**Derriwong Shield** - Classes 2/ 2a, 3/ 3a and 4/ 4a  
(awarded from the 3 STC Inc Shows only)

**Most Successful Neuter** – Neuter classes only.

---

## GUIDELINES FOR SCORING

The scoring for all Awards is the same except for *“Most Successful Breeder”*.

### Scoring calculations-

Best of Breed - 6 points

Runner-up Best of Breed - 5 Points.

1<sup>st</sup> place in individual class = 3 points

2<sup>nd</sup> place in individual class = 2 points

3<sup>rd</sup> place in individual class = 1 point

1 additional point is awarded to Best of each Class e.g. 3+1 = 4 points

The final score for each exhibit is based on their best 10 point score show results attained throughout the year as determined from the nominated Point Score shows.

The Point Score Steward will determine the exhibits best 10 point score show results, or if less than 10 shows attended, the exhibits score from each show, as taken from the marked Point Score show catalogue.

## CHALLENGE COMPETITION

- This competition is open to Dogs, Bitches and Neuters.
- Competition begins after the STC October Championship of each year and is completed at the STC Inc October Championship Show or the final nominated Point Score All Breeds Championship Show (whichever comes last) of the same year.
- Competition Challenge winning points may be gained at any Australian All Breeds Championship Show (**in any State or Territory**).
- Only points awarded at Breed level are counted. Additional points for Best in Group are not counted.
- A copy of the Challenge Certificate must be forwarded to the Point Score Steward within 14 days of the show either by Post or Email.

### ***THE ANNUAL AWARDS***

**Challenge Dog**

**Challenge Bitch**

**Challenge Neuter**

### **Scoring calculations:**

The Dog, Bitch or Neuter who has gained the most points within the specified competition time frame is the winner of the annual STC Inc Challenge Competition.

Challenge competition points are calculated by the Point Score Steward sighting a copy of the original Challenge Certificate and points entered into an 'excel spreadsheet'.
