

***** THE AUSTRALIAN SCOTTISH TERRIER STUDBOOK *****

Part 4 - Dogs with No Kennel Prefix 1889-2021

Many Scottish terriers in earlier times did not carry a Kennel Prefix. This Report, in two parts, lists them. There is some duplication as these may also have been included in Part 3, where I have been able to identify the Kennel of origin (where they have been identified with a "%" after their name).

Also, there were a significant number of breeders who do not appear to have used a Prefix, although they did breed a significant number of Scots - for example, "T.Forsyth" - at least 13 Litters...

See the previous Notes in Part 3 regarding the approximation of Dates of Birth and the use of "*" and "%"

The first Report is sorted in order of the Breeder's Name, and the second in order of Dog's Name.

As always, suggestions for improvement, particularly more details which will better illuminate this period, are most welcome!

Peter Hunter "nozama5372@gmail.com"

Sydney, August 2021.

AUSTRALIAN SCOTTISH TERRIER STUDBOOK
