

***** THE AUSTRALIAN SCOTTISH TERRIER STUDBOOK *****

Part 3A - Litter Details 1889-1945

The full Kennel/Litter Listings have been divided into two sections: 1889-1945, and 1946-2021. This is the first part.

Where a Date of Birth was not stated in the original documentation (which was incomplete, or contradictory, at times), I have tried to logically assign at least a year. You will see this as DoB = "01/01/yyyy" with a "?" next to the DoB. Usually this assumed the Sire and/or Dam was 2yrs old at the time of DoB. This was then finetuned if more data became available.

Entry of the raw data into a PC in a database environment has allowed sorting not just by Kennel, but by other fields such as Dam, or DoB. This has clustered Births together and sometimes allowed corrections in errors in the original information, or assignment of a value where it might have previously been lacking.

Where a Scot has been known to be bred in a particular Kennel, but is usually known as a bare name without the Kennel Prefix, I have appended a "%" after its name. So for example "Cotherstone Peter Piper %," although bred in the Cotherstone Kennel, was only known as "Peter Piper," without the prefix.

A "#" after a Scot's Name means that although carrying one Prefix, it was bought in from another Kennel. For example "Hemsby Twig #" was in fact bred in the Cotherstone Kennel. This was not unusual in earlier times.

"*" after a Sire or Dam indicates it did not carry a kennel prefix. For example, "Rosebud *," "Tinka *," etc.

Where the Sire or Dam is an Import, it has a number in brackets after its Name. This enables quick lookup of its details from Part 1 of this Studbook. For example, "Sire = Clonmel Monk (26)" in the Retford Kennel helps with an easier referral that just "(Imp UK)."

Where this might be helpful, I have appended information after the Scot's name eg "Ashleigh Dot # [Forfar [1]" shows that "Dot" was not bred in the Ashleigh Kennel, but came from "Forfar [1]."

The symbol "-" in the first column indicates data derived from the ANKC Database. The assistance of Dogs NSW in helping complete this work is gratefully acknowledged.

As always, suggestions/corrections, are most welcome!

Peter Hunter - "nozama5372@gmail.com"

Sydney, August 2021.
